Dear Dr. Hashim:

I am writing to you on behalf of the organizing committee of the IUPHAR satellite meeting entitled "Novel Molecular Approaches to Anti-inflammatory Therapy" to be held in Toronto, Canada on July 22-23, 1994. We are in the process of finalizing the list of speakers and chairpersons and I am confident that this meeting will be an exciting, state of the art forum which will facilitate scientific exchange in the field of pharmacotherapy of inflammation.

I am writing to appeal to you for your immediate financial support for this worthwhile meeting. Adequate funding for scientific research and for conferences which allow for the exchange and flow of ideas is increasingly difficult to find. We are asking for support from individual corporate sponsors in the range of $1,000 - $5,000; although any amount would be greatly appreciated. Your contribution will be used to offset expenses for this meeting and your sponsorship will be prominently acknowledged. A contribution of $5,000 or more would be acknowledged as a "benefactor" of the meeting. A brochure constituting the preliminary announcement is attached and is currently being
